TINSLEY DEAD IN PRISON TO IMPROVE THE WABASH

RIOT BY KILLING MASSEY.

Combination of Bullet Wound and Pneumonia Too Much for Him-News Has No Effect at Evansville.

Special to the Indianapolis Journal. JEFFERSONVILLE, Ind., July 31.-John Tinsley, alias Robert Lee, alias Lee Brown, the negro murderer of Patrolman Massey, of Evansville, died at 3:20 o'clock this morning at the Reformatory, where he had been confined for safe keeping. The negro contracted pneumonia soon after his arrival here, but after an operation by Dr. Sharp, the Reformatory physician, in which a portion of a rib was removed and a gain of pus was drawn from the lung, he improved rapidly. His temperature fell to normal and for a time it was believed he would recover. Wednesday, however, he took a change for the worse and his death

this morning was not unexpected. Superintendent Byers wired Judge Rasch, of the Vanderburg Circuit Court, for instructions as to the disposition of the remains, but it is likely that they will be sent to the State Anatomical Society at Indianapolis as Tinsley's wife is dead, having either been accidentally killed or committed suicide by throwing herself in front of a railroad train one day this week.

No Regret at Evansville.

EVANSVILLE, Ind., July 31.-There is little or no regret here because of the death of Robert Lec, the negro who shot Policeman Louis Massey in this city on July 3, causing the death of the policeman and leading to the rioting the following Sunday night and the firing by the militia on the mob the pext night. The death of Lee will eliminate a trial and prevent trouble that was feared would result were he brought back. A telegram announcing the death of the murderer came to Judge Rasch, of the Circuit Court, asking what disposition should be made of the body. Judge Rasch is out of the city and cannot be reached either by wire or

Zimmerman, for more than thirty years editor of the Warsaw National Union and one of the best-known newspaper men in the State, died at his home in this city this morning of general paresis. Some of the members of his party became dissatisfied and Editor Zimmerman was forced to retire or face the prospect of opposition in

the shape of another Democratic paper. Since his retirement he brooded much over the action of his party friends and finally lost his mind. Although possessing considerable property and money to keep him in easy circumstances, his greatest fear in his lucid moments was that he would become a public charge and be sent to the County

Third-'The law is all right. "Fourth-'What is the law?" "Fifth-'Where do we stand?" 'Sixth-'These laws are nullified because the state fish commissioner does not

Today was fast day, and was observed as such at the request of the Rev. Henry Ostrom the director, who desired to have the mind teach the bedy that the spirit is mightier than the flesh. In asking the followers to observe the day he preached a powerful sermon on "Loyalty to God." The Rev. C. L. Harper led a prayer service later, and Miss Spicer continued the children's meetings. At 8:30 o'clock Mr. Ostrom talked on the subject of the devil and the idea of future punishment. The Rev. S. Hobart Anderson preached on "That in All Things He

Plan to Elevate I., L. & C. Tracks Causes Resentment-Threat to Establish a Railroad Center.

Special to the Indianapolis Journal. LOGANSPORT, Ind., July 31.-The action of the elevated road commission of the Indianapolis Commercial Club in voting to insist on the elevation of the tracks of the Indianapolis, Logansport & Chicago Railroad, now seeking to secure an entrance into Indianapolis, has met with a storm of disapproval in Logansport and threats are being made to organize a sentiment in favor of establishing a commercial center in the northern part of the State to compete with Indianapolis and deprive that city of the bulk of the commercial trade of

northern Indiana. Walter A. Osmer, second vice president of the company and a director of the line, was bitter in his criticism of the commission's action. "It is plain to me," said he to-day, "that the Big Four is behind this opposition to our line, the same as it has been in years past, and I am satisfied that the Commercial Club is influenced in its behalf. If not, why was it that, when the elevated rack question was so thoroughly agitated n Indianapolis about a year ago, and the lig Four was making such a hard fight against it, the Commercial Club stepped in and said it was not necessary at that time to require the elevation of the tracks? "Indianapolis is primarily a railroad town and it cannot afford to shut out any railroad seeking an entrance there. Russiaville, a little town on our proposed line, last year shipped out 273 carloads of stock, and only five of these went to Indianapolis because of excessive freight rates. The rest went to Buffalo and Chicago, hundreds of miles distant. The Indianapolis commercial interests should not forget the time the merchants of a number of small towns on our route cut them off the list when the city made the mistake of resorting to its exclusive policy by turning this road down eight

vears ago. 'Indianapolis is not too big but that railoads can benefit the town. There are other cities in the northern part of the State that are fast developing into first-class railroad centers, and it would not be the most difficult thing in the world to organize a sentiment in this part of the State to make one of them the leading commercial cen-
